

All,

Happy Spring and thank-you so much for spending your valuable time with me last week. It was a pleasure to meet and chat with so many ambitious swimmers, and their parents! I hope you learned a lot about the college education recruiting process.

If you have not signed up for our free profile please refer to accrecruits.com and do so. This is the only way I can contact you., and I don't want to miss anyone inadvertently.

Lori helped us understand the very complex process of recruitment

We enjoyed working with Lori Payne and ACC Recruits. She built a great relationship with our son and was always available to answer questions via text, email, and phone. Lori helped us understand the very complex process of recruitment to swim at the college level. She helped our son contact coaches and was always willing to call them on his behalf. Lori was always up-to-date on his swim progress and even traveled to watch him swim live. Our son is thrilled with his plans to swim at Division 1 college in the fall.

The Patterson Family

Omaha, Nebraska

Above, is a cool testimonial from a young man I worked with over the last 18 months. Ryan certainly did his part. His commitment to his coach and team superseded many swimmers and I've known a lot! SO, it really does take a village to raise a child.

Please don't hesitate to fill out the free profile, call and email me for you questions and concerns.

Thanks again,

Lori
